1,000 SLAIN IN A DAY.
The Finnish situation continues to worsen. The Finnish internal disorders created by the outrages upon the Jews in Kiel, Thessalonika, Koenigsberg, Saratoff, and other cities, and other cities. In these outrages it is estimated that in one day 1,000 persons have been killed and 10,000 seriously hurt in the past twenty-four hours.

The military either cannot, or seemingly will not, prevent the fearful persecution of the Jews. In Thessalonika five hundred people were killed or wounded and many others.

NOVEMBER AILMENTS.

Their Prevention and Cure.

The Human System Must Adjust Itself to Changing Temperatures.

November is the month of falling temperatures. Over all the temperate regions the hot weather has passed and the first rigors of winter have appeared.

What effect upon the human system does approaching winter have?

But just what it is and how the deleterious effect of the winter season can be avoided is a subject requiring the closest study on the part of the physiologists and of the greatest concern to the masses of the people.

The organs most viscerally affected by falling temperatures are the skin and kidneys.

The preparation incident to warm weather has been checked. This detains within the system poisonous materials which have heretofore found escape through the perspiration.

Most of the poisonous materials retained in the system by the checked perspiration and their way out of the body, if at all, through the kidneys. This throws upon the kidneys extra labor. They become charged and overloaded with the poisonous excretory materials. This has a tendency to inflame the kidneys, producing functional diseases of the kidneys and sometimes Bright's Disease.

Good, vigorous health will overcome these vicissitudes and the body is strengthened rather than weakened by the change.

But, in a large per cent. of cases, the system yields. The skin is unable to meet the extra pressure put upon it. The kidneys fail in their attempt to dispose of all the waste so suddenly thrown upon them. Therefore many people succumb.

What can be done about this? Of course, a careful avoidance of all exposure is first to be thought of. Also a change of garments suitable to the season, careful ventilation of the sleeping rooms and the avoidance of drafts. The diet should also be so modified as to meet the peculiar demands of the system.

But, even when all these things are most intelligently and cautiously performed, still remains a multitude of people who will go down before the hostile approach of winter—who will be vanquished in the struggle against the elements.

Peruna acts upon the skin by stimulating the excretory glands and ducts, thus preventing the retention of poisonous materials which should pass out. Peruna invigorates the kidneys and encourages them to fulfill their function in spite of the chills and discouragements of cold weather.

Peruna is a combination of well-tried, harmless, vegetable remedies that have stood the test of time. Many of these remedies have been used by doctors and by the people in Europe and America for a hundred years.

It is not idle to experiment with other remedies when Peruna is obtainable? It has become universally recognized as the standard remedy.

Do not neglect to provide yourself with the safest and surest of all remedies to meet this emergency.

Czar's Amnesty Ukase New Crime Against His Name

The Czar's amnesty ukase is not a pledge of good faith, but is a humbug. To transport to Siberia those who have been imprisoned for years in fortresses and to exclude from amnesty those whom Von Plehve drove to commit desperate actions is to add one more to the already too long list of crimes marked against his name.

METHODIST BISHOPS CONDEMN PROF. MITCHELL

Teacher at Boston University School of Theology Must Vacate Chair of Old Testament—Talk of Heresy Trial

For views set forth in his book, "The World Before Abraham," and for various statements contrary to the tenets of the Methodist Episcopal Church, Professor H. Mitchell has been condemned by the bishops of the Methodist Episcopal Church.

This is the decision of the board of trustees of the Methodist Episcopal Church, which has been appointed on the 10th of October to investigate the charges against Professor Mitchell.

Professor Mitchell's book, "The World Before Abraham," is a study of the history of the world from the beginning of time to the present day.

HER BODY WAS CUT UP
BEFORE IT WAS COOL

here today from New York, where the men have been since the arrest of Crawford and Howard. Speaking of the two men, the unnamed prisoners, Captain Dignan says: "The extradition laws in New York and Pennsylvania are such that prisoners cannot come on from either of these States to this under arrest without requiring a writ of habeas corpus. The writ could be theoretically released from custody. Morris Nathan was, in theory, released when he came of his own free will. Practically, however, he was under arrest, because if he had made any attempt to leave the State or if his counsel had been able to obtain a writ, the State could have been taken and the man taken down where so arrested until a regulation could be obtained. Crawford and Howard are waiting. When the Grand Jury finds a bill against them, as will be the case shortly, regulation papers will be issued and they will come on to be in custody of the United States."

Unable to locate the missing head which, according to the confession of Crawford and Howard, the men under arrest in New York, was placed in McGarry's own suit case, weighted with shot and sunk in Boston Harbor in the path of the North Ferry, the officials have arranged for a most complete search, with the assistance of trawlers and divers. If the head is found in such a weighted case, the last bit of evidence corroborating the confession of the men

His hearing was taken place next Friday.

That another physician may be arrested is indicated by a few words spoken last evening by Captain Dugan of police headquarters. A BOSTON SUNDAY AMERICAN reporter asked him: "Is there a probability of another doctor being arrested?"

The year before, the lawyer of 12 Holliston street, Boston, was elected to the Senate, was of medium size, rather thin in build, with a high forehead, and a face that beamed again as he stepped to the front of the room.

Mr. McKean of Westfield, a tall, thin, young man, who had been a member of the Boston Athletic Association, reported that he had been in the room for some time, but that he had not seen a single man who had been in the room before. He had seen a doctor, however. His first husband was a doctor, and he had been in the room for some time.

At the Dorchester Hotel, Boston, where the investigation was held, it was learned that Elizabeth H. Hines's father, John H. Hines, was a member of the Boston Athletic Association, and that he had been in the room for some time.

STRAINED BLOOD VESSEL JUMPING FOR HIGH FLY

San Finishes Ball Game, Goes Home and Dies.

San Francisco, Nov. 4.—John A. Lee, aged twenty-two, son of Mr. and Mrs. John Lee, 10 Park street, died here last night.

He was in the best of health the day before and one of the enthusiastic players in the game in Wino Village. A ball was thrown to him, with a force which he could not resist. After catching it with his right hand, he was struck in the head. He instantly fell away and he continued to play and finished the game and returned to his room, dying during the evening, having strained a blood vessel near the heart.

IS NEARLY SCARED TO DEATH BY BOGUS GHOST

Frank Played on a Fisherman May Yet Result Fatally.

Marion, O., Nov. 4.—E. J. Mayer, Samuel Mehafer played the role of ghost with several others while fishing in Michigan, and

Kirk Luns, a member of the party, was the victim. His death nearly resulted from the fright.

For several nights the Marion men went to the old mill, which was to be haunted by a ghost, and some of the members of the party, including Kirk Luns, were killed.

Frank Luns was hit into the mill, and he and a few were left alone in the mill on the night of the third ghost act. Luns collapsed from fright, the services of a physician being necessary.

2 SCALDED TO DEATH BY BURSTING PIPE

Pharos, Pa., Nov. 4.—By the bursting of a steam pipe in the boiler room of the Bridge Street oilseed corporation plant, two men today, Mathew Tarr, and forty-seven years, and John Stammer, a watchman, aged sixty-eight years, met a terrible death by scalding.

UNDERGROUND LAKES STOP ROAD BUILDING

Unusual Discovery Made by Workmen in Indiana.

Greensfield, Ind., Nov. 4.—In the construction of a gravel road in Jackson Township peculiar observations have been found by the contractors. There are two

small lakes in the townships, and there is a narrow strip of gravel between them. The road was to be built along this strip, but the gravel was so wet that it would not bear the weight of the road.

A sounding was made, but no bottom reached, although a weight was let down to a depth of sixty feet. The contractor refused to build the road as ordered by the engineer, as it is too dangerous to build on it, and the gravel is so placed on it, and he is impossible to maintain.

VOTE FOR GUILD AND DRAPER

Copyright, 1905,
E. Chickering Co.

CURTIS GUILD, JR.,
Republican Candidate for Governor.

CURTIS GUILD, JR.

Born in Boston.

Graduate of Harvard University.

Editor of the Boston Commercial Bulletin; exposed the undervaluation of raw sugar at the port of New York and greatly benefited Massachusetts.

Enlisted as 1st Lieutenant in 6th Mass. regiment at the outbreak of the Spanish war, later Inspector-General on staff of Gen. Fitzhugh Lee of the 7th army corps, U. S. Volunteers.

For 25 years staunch party worker; has been on the stump every year since 1888 except when in the army; president of the Mass. Republican Club in 1901; lieutenant-governor in 1903, 1904, 1905, which office he now holds.

Prominent in the crusade for the prohibition of child labor in factories; endorsed by prominent labor leaders for his work along this line.

EBEN S. DRAPER.

Born in Hopedale, Mass.

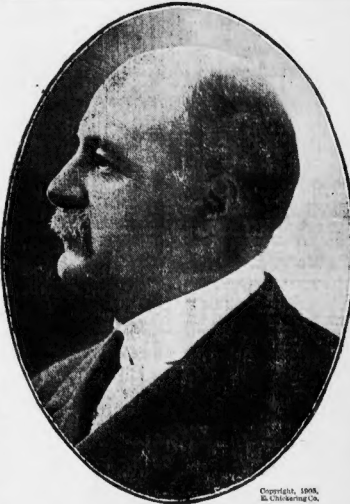

Selling agent of Draper Company, employing from 2000 to 3000 men. Director of cotton mills, shoe manufacturing companies, banks, etc.

Highest gold medal for homes of employees awarded Draper Co. of Hopedale by Paris, St. Louis and Belgian Exposition.

Chairman Massachusetts delegation to National Republican Convention of 1896. Managed successful canvass for gold standard in platform.

President Massachusetts Volunteer Aid Association which cared for our sick and wounded soldiers and sailors during the Spanish war.

He stands, as does Curtis Guild, Jr., for an immediate revision of the tariff by the Republican party.

Republican Candidate for Lieutenant-Governor.

WHY HENRY M. WHITNEY SHOULD BE DEFEATED

Henry M. Whitney Says:

"I freely admit giving the dinners and making use of the lobby. . . ."

THE LATE GOV. RUSSELL, Democrat

Henry M. Whitney's Methods

"If I had been Governor of this Commonwealth, I would, under the circumstances disclosed by the investigation, have vetoed that bill (the Henry M. Whitney West End Bill) as quickly as I could have put pen to paper. For I hold that it is far more important to guard sacredly the purity of legislation and to rebuke the lobby than that any measure of merit should be hastened in its passage. I hold that one of the highest duties of the Governor of the Commonwealth is to protect its fair name from legislative scandal and to protect the people from the improper control of legislation by secret influences.

PROTECT THE UNSULLIED REPUTATION OF THE COMMONWEALTH.

Massachusetts has never yet chosen for the office of Governor or Lieutenant-Governor a man whose public record has borne a stain. The Democratic candidate for Lieutenant-Governor has, by his own admissions, been guilty of practices in dealing with the Legislature which the Supreme Court of Massachusetts has declared to be against the public interests. His methods have been condemned by a Legislative Committee of which Josiah Quincy was a member. He publicly states that he has waited fifteen years for this charge to be brought, and now that it is, he publicly admits that the charge is true. Are you willing to condone such offences against public morals by voting for him for Lieutenant-Governor, or will you still be true to the best traditions of our Commonwealth and refuse to place the stamp of your approval upon his acts?

President Roosevelt on Political Integrity

Above all we should treat with a peculiarly contemptuous abhorrence the man who, in a spirit of sheer cynicism, debauches either our business life or our political life.—President Roosevelt at Atlanta, Ga., Friday, Oct. 20, 1903.

THE SUPREME COURT OF MASS.

Henry M. Whitney's Methods

"The practice of procuring members of the Legislature to act under the influence of what they have eaten and drunk at houses of entertainment tends to render those of them who yield to such influences wholly unfit to act in such cases. They are disqualified from acting fairly toward interested parties or toward the public. The tendency and object of these influences are to obtain by corruption what it is supposed cannot be obtained fairly." (6 Allen, 159.)

WHY GUILD AND DRAPER SHOULD BE ELECTED

BECAUSE they are business men of high ideals and clean public records.

BECAUSE their election would guarantee the continuance of efficient management of State affairs.

BECAUSE both have been tried in high places and proved their worth.

BECAUSE they represent the desires of the people for tariff revision along safe and sane Protective lines.

BECAUSE they represent the reciprocity of Blaine, McKinley and Roosevelt.

BECAUSE both are the tried friends of labor.

BECAUSE both have shown this friendship by practical acts rather than by false promises.

BECAUSE they stand for purity in the legislation of Massachusetts.

BECAUSE this is a state campaign and should be contested upon state issues, and there has not been one single reflection upon Republican management of state affairs.

BECAUSE Democratic arguments for Free Raw Material mean ultimate Free Trade.

BECAUSE a vote for Guild and Draper is a vote to support Roosevelt and the national administration.

BECAUSE their acts will be untrammelled and free from corporate influence.

BECAUSE attempted corporate control of the legislature should be rebuked.

The triumphant election of the Republican Candidates, GUILD and DRAPER, will be made secure by every right minded citizen doing the full duty he owes his State on Tuesday next. The candidates and the platform should appeal especially to every loyal Republican. Give them the old-time Massachusetts plurality. Stand by Massachusetts ideals.

VOTE FOR GUILD AND DRAPER

The Republican State Committee, Thomas Talbot, Chairman, William M. Flanders, Secretary.

HIS HEAD STUCK IN PARLOR STOVE

Springfield Man Almost Fainted Before Help Came and Rescued Him.

Springfield, Nov. 4.—Harold F. Baker is just recovering from a unique experience. It is so unusual for a man to get his head stuck in a parlor stove and not be injured that it is a fairly common occurrence in the world to be the victim of an accident. He was trying to put a small stove in a small room and had got his head stuck in it. He was almost fainting when help came and rescued him.

Ward _____ City _____

I, the undersigned, enroll myself a member of the Municipal Ownership League of the city in which I reside. I pledge myself to use every honorable effort to bring about the municipal ownership of public utilities. I believe that city lighting plants to supply the needs of the city and the citizens as well as one object to be attained.

The attempt now being made to elect a Legislature which will pass measures permitting the establishment of an electric railway monopoly in Massachusetts and granting exclusive franchises to a favored syndicate shows the necessity of a prompt and concerted movement for public ownership by all citizens, irrespective of party.

Twenty-three thousand people
saw the Indians score twice
against the Crimson at the Sta-
dium, yesterday afternoon. Those
who went away at twilight began
to fall asleep. The most spec-
tacular moments of the game,
when, with seven minutes to
the final whistle, the Red Men
carried the ball from their own 23-
yard line down the field and
across their opponents' goal line
for a touchdown, in a series of
brilliant and enthusiasm-raising
plays.

If the score of Indian maidens
who sat behind the Carlisle
benches waving flags and en-
couraging the warriors to deeds
of valor by their cheers and songs
and improvised a poem of triumph
had been paraphrased an old melody
and sung.

In the evening, by the moonlight,
Through the crimson line a song-
ing
In the evening, by the moonlight,
You can hear the Red girls singing:
Round the ends and through the
center.
When a rattling, crashing snarl,
As Carlisle made a touchdown
By the moonlight.

THE "100 PRIZE" STORY

This Chapter Concludes the Story--The Hundreds Who Attempted the Solution Will Here Find How Van Dusen Escaped.

Synopsis of Preceding Parts

An eminent scientist, Professor Augustus R. Van Dusen, known as "The Thinking Machine," after an argument with two scientific friends, Dr. Charles Hannon and Alfred Fielding, undertakes to escape from the death cell of Chatham Prison, by having maintained that nothing is impossible, even the escape of a prisoner under sentence of death. By the terms of the agreement he is to wear only a shirt, trousers, shoes and stockings; he is minutely searched before he enters Cell 13, the death cell, which is on the fifth floor, and is not to communicate in any way with the outside, if such communication can be prevented.

Before entering Cell 13 Van Dusen's Machine makes three unusual requests which are granted. These are for tooth powder, for one 25 and one 50 cents, and to have his silver pocket watch. Then the Thinking Machine is locked in Cell 13. As he enters there is a scurrying of rats. He tells the warden that he has five friends that he will join them in the office of the prison at half past six o'clock, one week from the night he is locked in.

From the small window of his cell the Thinking Machine next day sees the agonizingly unbecomingly pale of the prison and studies the outside situation generally, as far as he can see, the attention being attracted to an arc light which illuminates the wall by night. There are light cuts in the prison building by a few wires which pass near the window of Cell 13.

There are seven doors, six of them iron and steel, and the Thinking Machine sees a barred window, a tall wall and an unbarred window, and a door. There is nothing in the cell which might be made into a tool, and the Thinking Machine has only his hands and feet to depend on, and Hannon's hat, reporter. The next week is over to him, in accordance with the terms of the agreement.

He makes a minute search of his cell, finds it is a small round hole where a common rat is his cell. He complains of a rat in his cell, and after a while he is released. It is then that he also asks for a rat in his cell, and he is released.

Next week's great mystery story, entitled

"The Ralston Bank Burglary"

A most fascinating and baffling mystery solved by The Thinking Machine.

The Winners of "The Mystery of Cell 13"

Will be announced as soon as the judges have had sufficient time in which to go through the mass of letters and arrive at a decision.

Two pieces of white linen on which something is written. Around these is a 55 bill, and a request to deliver the linen to Dr. Charles Hannon, and after a while he is released. It is then that he also asks for a rat in his cell, and he is released.

"So you believe it is now?" he said. "I do," said Dr. Hannon. "You admit that it was a fair test?" "I do," said the warden. "The warden, who was waiting outside for the explanation."

"I admit to tell you how," began Mr. Fielding. "I do," said the warden. "The Thinking Machine readjusted his glasses, took a couple of preparatory breaths, and then he said to the warden, 'I have been thinking about this for some time, and I have decided to tell you how I did it.'"

THE MYSTERY OF CELL 13

PART VI.

It was an important supper party in the rooms of Dr. R. P. Van Dusen that night, and a somewhat silent one. Three of the Thinking Machine were Dr. Hannon, Alfred Fielding, and the warden, and Hannon's hat, reporter. The next week is over to him, in accordance with the terms of the agreement.

He makes a minute search of his cell, finds it is a small round hole where a common rat is his cell. He complains of a rat in his cell, and after a while he is released. It is then that he also asks for a rat in his cell, and he is released.

Next week's great mystery story, entitled

"The Ralston Bank Burglary"

A most fascinating and baffling mystery solved by The Thinking Machine.

The Thinking Machine, Confronting the Trio of Doubters, Tells How He Thought Himself Out of His Cell.

The electricians were searching for the cause of the trouble, but they found nothing. The Thinking Machine, who was working outside, told them that he had found the cause of the trouble. He told them that he had found the cause of the trouble. He told them that he had found the cause of the trouble.

Made Murderer Confess.

There was only one more thing to do before I actually began the work of setting myself free. This was to arrange that details with Mr. Hannon through my speaking tube. I did this with half an hour's delay. The warden left my cell after a search on the fourth night of my imprisonment. Mr. Hannon had been working on the word "Hannon" right out of his cell, and he had been working on the word "Hannon" right out of his cell, and he had been working on the word "Hannon" right out of his cell.

The Thinking Machine stopped and turned to the reporter. "And there again just what you need," he said. "I have been thinking about this for some time, and I have decided to tell you how I did it." "I have been thinking about this for some time, and I have decided to tell you how I did it." "I have been thinking about this for some time, and I have decided to tell you how I did it."

You Thirty Feet of Bowels

is simply Weakness, or Laziness of the Bowels.

The Electric, Indoor Employment, weakens these Bowels, just as it weakens Arm and Leg Muscles.

Caster Oil, or Glycerine, will grease the passages for one load of Food at a time, but these lubricants can't help the Cause of Delay.

"Physic" the Salt, Calomel, Jalap, Phosphorus, Soda, Mineral Waters, simply flush-out the Bowels for the one occasion only.

They do not remove the Cause of Constipation.

Moreover, they waste so much of the precious Digestive Fluid in the flushing process, that it takes a bigger dose every succeeding time to move the Bowel load. But it is different with Cascara.

Cascara acts on the Muscles of the Bowels and Intestines. They act just as Cold Water, or Exercise act on a Lazy Bowel.

They act on the exercise.

A Cascara produces the same sort of Natural result that a Salt Water in the country would produce.

The Vest Pocket Eos is sold by all Druggists and Chemists.

It should be carried constantly, because a Cascara should be eaten when you first suppose you need one.

It is a gentle, safe, and effective, made only by the Siringe Remedy Co., Chicago and New York.
